

**WDRT 91.9FM** (Driftless Community Radio) is the only noncommercial, independent radio station in the Driftless region.

**WDRT is committed to:**

- informing listeners of local and state events and community happenings
- entertaining and engaging the public by offering a broad mix of programming that reflects the heritage and diversity of the community
- providing a forum open to all residents to discuss public issues
- teaching the art of broadcasting and the production of original programming

In a time when fewer media moguls own the vast majority of information sources, WDRT is bucking the trend. We're putting radio in the hands of the public. We welcome everyone in the community to participate. We aren't beholden to advertisers, and we have time to go beyond sound bites.
